

# MAKE YOUR OWN MACRAME HANGER!

## STEP 1

Cut six pieces of cord into 3m lengths. Pull six pieces through wooden ring halfway so you have 12 cords. Cut one length of 80cm cord, gather 12 cords firmly below ring. In front of them, use short cord to make a U shape.

## STEP 2

Use the longer end of the cord to wrap firmly around the 12 cords eight times to trap the U. Pass end of cord through the U.

## STEP 3

Lightly hold all cords and pull top cord up to trap bottom of the U inside the wrap. Cut both ends close to hide. That's your first gathering knot done!

## STEP 4

Separate 12 cords into three groups of four. Place left working cord over two middle cords and under right working cord making an L shape.

## STEP 5

Take right working cord, place it diagonally behind the two middle cords and up through the left loop. Pull both working cords up firmly and avoid twisting middle cords. Repeat this 20 times to create spiral knot. Repeat this step for the two remaining groups of cord.

Crafter **HAYLEY RYAN** from Ivy Trove explains how to weave this pretty pot holder

### WHAT YOU'LL NEED

- ◆ About 25 metres 3-5mm cotton cord
- ◆ Wooden ring
- ◆ Scissors
- ◆ Measuring tape
- ◆ Good vibes!

### KNOTS USED

- ◆ Gathering knot
- ◆ Spiral knot
- ◆ Basic knot

### TOP TIPS

- ◆ Make sure your knots are tight to avoid movement after pot is in.
- ◆ Keep cords you aren't working with out of the way to avoid crossing over the wrong ones.
- ◆ This hanger will fit a pot size of about 15-30cm diameter and 10-20cm length.

## STEP 6

Get two inside cords from two adjacent spiral knots, making four in total. Measure down approximately 25cm and tie a basic knot for each group.

## STEP 7

Grab two inside cords from two adjacent knots. Repeat Step 6 but only measure about 10cm down. This will create your net that holds the pot.

## STEP 8

Hold your pot firmly and place in the net to make sure it fits! If not, simply tie basic knots slightly higher or lower to suit.

## STEP 9

Measure about 6cm below last basic knot. Cut one length of 80cm cord and gather all cords firmly. Use short cord to make U shape, repeat steps 2 and 3.

## STEP 10

Cut ends of the remaining cords to your desired length. Unravel, keep twisted or do whatever your creative heart desires. Hang up and admire your incredible work!

# FUN FUR PAL TREATS

Check out the latest goodies for our pet friends

**SUPERFOOD DOG TREATS \$15.95 BELL & BONE**  
[bellandbone.com.au](http://bellandbone.com.au)

These human-grade dog treats are not only delicious for your pooch, they're nutritious, too! Made with natural ingredients, these snacks are grain- and preservative-free, and contain superfood ingredients like carob and ginger for digestion, and coconut and chia for shiny coats.

**SPILL-RESISTANT PET BOWL FROM \$69 FURF PETS**  
[furfpets.com.au](http://furfpets.com.au)

Skip the slippery, messy floor with this new spill-resistant bowl by Furf Pets. With a non-spill lip and non-slip base, it won't slide around on the floor while your pet is eating or drinking. Dishwasher safe, it's available in three sizes and colours – bone white, black stone and dusty pink.

**ORGANIC COTTON LEASH \$50 ANIMALS IN CHARGE**  
[animalsincharge.com.au](http://animalsincharge.com.au)

These leashes are made with not only your dog in mind, but the environment too, having been created using sustainable organic cotton. They're woven with industrial twine, which is knotted to maintain strength. Cleaning is a breeze – throw it into a garment bag and then straight into the washing machine.

**DOGCHECK FREE BLACK HAWK**  
[dogcheck.com.au](http://dogcheck.com.au)

More than 41 per cent of Aussie dogs are thought to be obese or overweight. This online tool helps dog owners identify health risks by entering the weight, gender, age and breed. This data is translated into a "human figure", so an owner can visualise their pup as an overweight person.
